Social Impact Recruiting Announces New Ownership

Munich, Germany - Social Impact Recruiting (“SIR”), a not-for-profit training and recruitment agency for refugees in Germany, announced today that Jin-Ju Jahns, Founder of SIR, and Dinese Hannewald have purchased the company. Terms were not disclosed.

Jin-Ju Jahns founded SIR in February 2016 and is very confident about the company’s plans for growth and its ability to achieve sustainability with the new ownership structure. “I am extremely happy with the new developments at SIR. In the past year, we have had a wonderful start in building programs and supporting refugees to access the workforce. With Dinese onboard I look forward to growing our programs and extending our impact.” said Jin-Ju Jahns.

Dinese Hannewald, CEO of Grace Advisory GmbH and owner of Grace Impact UG, a not-for-profit enterprise, said “ I am incredibly excited to purchase this leading job training and recruitment company with Jin-Ju. Contributing to an effective solution that facilitates the successful integration of refugees in Germany has been a core objective for me since 2015. Rather than create yet another start-up, I thought it was best to collaborate with SIR - first as a private donor and later as a sponsor – since we share the same values and goals. With additional capital from Grace Impact and my direct involvement as Managing Partner together with Jin-Ju, I believe that SIR can soon achieve its strategic objectives.”

About SIR: SIR is a not-for-profit company that actively supports the integration of refugees into German society and the workforce by facilitating the connection between refugees and employers. SIR provides various programs and workshops to refugees and companies or corporations.
